## Profile Summary

Biostatistics and Demography professional with advanced training at IIPS Mumbai, specializing in quantitative research, epidemiology, and statistical modeling. I have hands-on experience working with large-scale datasets, including NFHS, LASI, and Census data, using R, Python, SAS, Stata, and SQL. My expertise includes regression modeling, multivariate analysis, survival analysis, causal inference (including Difference-in-Differences), population projections, and Monitoring & Evaluation frameworks. I am experienced in managing the entire data lifecycle from data cleaning and handling complex surveys to advanced analysis, visualization, and technical reporting. I am particularly interested in generating rigorous, policy-relevant evidence to strengthen public health programs and support data-driven decision-making.

## Education

| ***Degree*** | ***College/University*** | ***Year*** | ***Percentage*** |
|---|---|---|---|
| Master of Science | International Institute for Population Sciences, Mumbai | 2024-2026 | ongoing |
| Bachelor of Science | Patna Science College, Patna University | 2021-2024 | 73.75% |
| Intermediate (12th) | SVP College Bhabua, (BSEB Patna) | 2018-2020 | 85.2% |

## Specialization Courses

| | | | |
|---|---|---|---|
| Demography | Epidemiology | Population Projections | Survival Analysis |
| Biostatistics | Longitudinal Data Analysis | Systematic Review & Meta-Analysis | Data Analysis using R |
| Clinical Trials | Big Data using Machine Learning | Data Management & Analysis in SAS | Monitoring Evaluation (M&E) |
| Population Ageing | Policy Analysis | Econometrics | Large Sample Theory |

## Experience

- **Research intern** - ***Dept. of Political Science, Central University of Andhra Pradesh*** **( 2 months)**
  Conducted policy-oriented research on **JEEViKA and women's empowerment in rural Bihar**, analysed SHG-based financial inclusion, livelihood outcomes, and implementation challenges using field observations and secondary data.

- **Data Science Intern** - ***Cognifyz Technologies*** **( 1 month)**
  Analysed a real-world restaurant dataset using Python (Pandas, NumPy, Matplotlib, Seaborn) for data cleaning, descriptive analysis, and visualisation of ratings, cuisines, and price ranges.

## Technical Skills

- **Programming:** R, Python, SQL
- **Statistical Software:** Stata, SPSS
- **Demographic Tools:** MORTPAK, SPECTRUM
- **Qualitative Analysis**: NVivo, Atlas. ti
- **Visualisation:** Matplotlib, Seaborn, Power BI, QGIS
- **MS Office:** Word, Excel, PowerPoint,
- **Other Tools:** SAS, Kobo Toolbox
- **Soft Skills:** Problem Solving, Analytical Thinking, Team Collaboration, Effective Communication

## Projects

- ***Inter-State Urban Male Migration*** – Census 2011 (Trend Analysis, Cross-Tabulation)
- ***Does Tobacco smoking increase the risk of tuberculosis?*** A Systematic Review and Meta-Analysis (Literature Review, Screening)
- ***Women's Autonomy in Household Decision-Making and Its Impact on Nutrition and Dietary Patterns in Slum Areas (Chembur, Mumbai):*** A Fieldwork Project, Qualitative analysis
- ***Empowering Women at the Grassroots:*** JEEViKA and the Silent Revolution in Rural Bihar
- ***Pradhan Mantri National Dialysis Program -*** *Policy Review*
- ***Community-Based Millet Value Addition and Market Linkage Programme (CMVAML) In Rural Rajasthan***

## Certification

- **UGC NET Qualified (Population Studies)**
- Two-day workshop on **Principles of Clinical Trials: Design, Conduct & Analysis**
- **Advanced R Programming for Data Analytics in Business**
  *(NPTEL–SWAYAM, IIT Kanpur)*

## Workshops & Training

- One-day workshop on **Scaling, Measurement Techniques & Questionnaire Development**
- Two-day workshop on **Advanced Data Analysis using SPSS (Version 31)**
  *(Statistical analysis and modelling tools)*
- Two-day workshop on **Data Analysis & Machine Learning using STATA (Version 19)**
  *(Regression, SEM, and ML techniques)*

## Additional Details

- **Language:** Hindi (Native), English(Proficient),
- **Interests:** Biostatistics, Clinical Research, Public Health Analytics, Public Health Research, Monitoring & Evaluation,
